Clause 2: Educational Philosophy

Educational philosophy:

The goals of the bachelor stage are put into effect through applying an educational philosophy that relies on the following principles:

1. A process that lasts forever.

2. The person is capable of self-learning through his personal efforts on reaching the knowledge resources and taking benefits from them.

3. The staff member is not just a vehicle for knowledge and skills, but he also guides his students to reach to the different knowledge resources. In addition, he should be their role model in facing different problems and being capable of solving them with the help of his gained experiences.
