

## Clinical Learning Guide

### Head tilt/chin lift

| STEP/TASK   | AP | IP | NP |
|---|----|----|----|
| <b>Inspecting the victim:</b>   |    |    |    |
| <b>Start “Head tilt-Chin lift maneuver”</b>   |    |    |    |
| 1. Place your hand on his forehead and gently tilt his head back.   |    |    |    |
| 2. With your fingertips of the other hand, under the point of his chin, lift the chin to open the airway.               |    |    |    |
| 3. Holding his airway open put your ear to his mouth. Listen, feel, and look for breathing for no more than 10 seconds. |    |    |    |

AP = Adequately Performed  
IP = Inadequately Performed  
NP = Not Performed
